

# Wash Down Infrared Heating Panels

Developed by Hole-In-One Enterprises / [greendirections.ca](http://greendirections.ca) for agricultural and greenhouse applications and other high-moisture environments

Now available in water resistant panels for use in livestock production, infrared heating panels gradually warm up and dry the ground reducing excess moisture, bacterial growth and runoff. Animals will be healthier and less aggressive.

Advantages over traditional heating methods:

- ✓ Low energy consumption
- ✓ Water-resistant
- ✓ Eco-friendly
- ✓ Easy self-levelling installation
- ✓ Reduces odours
- ✓ Prevents mould
- ✓ No movement of dust or bacteria
- ✓ Silent operation
- ✓ No moving parts
- ✓ Maintenance-free
- ✓ Tamper-proof
- ✓ Will not cause fire
- ✓ increases productivity\* (ask for research report)
- ✓ heats the floors and entire structure

2 SIZES: 48" X 24" AND 42" X 42"  
3 VOLTAGES: 120, 240 and 208

Conforms to UL Standard 1278  
Certified to CSA Standard C22.2 No. 46

Made in the U.S.A.
